

# Ugly Ego

Cameo

Searching  
Looking to the sky  
We've got our heads up high  
We're doing fine  
Laughing  
With no intent to cry  
We'll keep on stepping by  
We're doing fine

Talkin' 'bout that weird feeling  
Seeping into my brain  
There's nothing to tell you  
But it's never gonna be the same  
Said that you can feel it  
If you do like I do  
Just don't let that ugly ego  
Get the best of you

Can't turn back  
You've got to leave that world behind  
Don't you know  
You know it's a fact now

Forget that ugly ego  
Forget that ugly ego  
Forget that ugly ego  
Forget that ugly

Can't turn back  
You've got to leave that world behind  
Don't you know  
You know it's a fact now

Do it!

Are you open  
Are you open, tell me are you open  
Are you open  
Are you open, tell me are you open

Forget that ugly ego  
Ugly ego  
Forget that ugly ego  
Ugly ego
