

I like to think when I'm driving  
I like to daydream a little  
I like to think about the people  
The faces of the young and the old  
I want to watch the whole story unfold

I'm gonna drive real fast now  
Forget about my past now  
I know I'm a fuck up  
I know, a real tragedy  
I never listen to people, you see

You can't say what's on your mind  
Just go for it  
Come on this time  
I know, I know, I know I'll cry  
I'll cry

Hot ideas in this cool head  
Forget about what she said  
Idolater of beauty  
Cri du coeur  
She's going to leave you always wanting more, wanting more

You can't say what's on your mind  
Just go for it  
Come on this time  
I know, I know, I know I'll cry  
I'll cry  
I'll cry  
Cri du coeur
