

# Something's Gotta Give

Camila Cabello

Loving you, I thought I couldn't get no higher  
Your November rain could set the night on fire, night on fire  
But we could only burn so long  
Counterfeit emotions only run skin deep  
Know you're lying when you're lying next to me, next to me  
How did we get so far gone?

I should know by now  
You should know by now  
We should know by now

Something's gotta give, something's gotta break  
But all I do is give, and all you do is take  
Something's gotta change, but I know that it won't  
No reason to stay is a good reason to go  
Is a good reason to go, ooh

I have never heard a silence quite so loud  
I walk in the room and you don't make a sound, make a sound  
You're good at making me feel small  
If it doesn't hurt me, why do I still cry?  
If it didn't kill me, then I'm half alive, half alive  
How did we get so far gone?

I should know by now  
You should know by now  
We should know by now

Something's gotta give, something's gotta break  
But all I do is give, and all you do is take  
Something's gotta change, but I know that it won't  
No reason to stay is a good reason to go  
Is a good reason to go

I should know by now, you should know by now  
I think I'm breaking right now, ooh  
I should know by now, you should know by now  
I think I'm breaking right now

Something's gotta give, something's gotta break  
But all I do is give, and all you do is take  
Something's gotta change, but I know that it won't  
No reason to stay is a good reason to go  
Is a good reason to go, ooh  
Something's gotta give
