

## Conversation

## Camouflage

Let me smile  
We'll have a conversation  
About broken pride  
And the situation  
Having me around  
Causing a chain reaction

What do you want to do when you're doing these things?  
What do you want to do when you're doing these things?  
To me  
What do you want to do when you're doing these things to me?  
What do you want to do?

Once in a while  
We move in diverse directions  
And its no surprise  
How we lost attraction  
But having me around  
Still causing a chain reaction

What do you want to do when you're doing these things?  
What do you want to do when you're doing these things?  
To me  
What do you want to do when you're doing these things to me?  
What do you want to do?
