

Paperhouse

Can

Take a light shining on the land,
Off the wall,
Up and down, free everything,
What you feel is all gone.
You can make everything
What you want with your head,
You're OK and be aware
Everywhere with your mind.

Two times, goodbye love,
You're sorting out for your room.
Too many savage songs,
Laugh with him today.
Playing everything,
You and your mind
And flying paperhouse
Way back on the laugh.

You just can't give them no more,
You just can't give them no more,
You just can't give them no more.

Honey back, fake everything,
Make them feel so bad.
You can make everything
What you want with your head.
Honey back, fake everything,
Make them feel so bad.
You can make everything
What you want with your head.

Flying paperhouse,
Let's stop in the sky.
Every day my paperhouse
Reaches out, comes in,
Every day my paperhouse
Coming in, reaching out.
