

Father Demon

Cancerslug

Unclean spirits get thee behind me
Can't you hear the revelations rolling off my tongue
I wanna know what makes you cum
Is it the sight of the blood or the smell of the gun
I already know how to run
Father demon save your son

I tried to give you all my love but you refused it
So I'll give you death instead you sure could use it

Unclean spirits get the behind me
Can't you feel the revolutions burning all around
I wanna know what makes you cum
Is it the sight of the blood or the smell of the gun
I already know how to run
Father demon save your son

I tried to give you all my love but you refused it
So I'll give you death instead you sure could use it

One more angel has come to die
I already know her deep down inside

Sweet mother don't you cry
Your daughters just another dead f*ck
Waste of human life

Unclean spirits get thee behind me
Can't you feel me revel in the carnage all around
I wanna know what makes you cum
Is it the sight of the blood or the smell of the gun
I already know how to run
Father demon take me home

I tried to give you all my love but you refused it
So I'll give you death instead you sure could use it
We know love is dead
