

Fair weather friends
Fair weather friends
You're here till all my money or
My drugs come to an end

Fair weather friends
Fair weather friends
And when there's times of trouble I know
You're out the door again

Goddamn you all, I don't care where you've gone
I just wrote you this song
My fair weather friends

Fair weather friends

You're here till all my money or
My drugs come to an end

Fair weather friends
Fair weather friends
I hope I never see your f*cking faces again

Goddamn you all, I don't care where you've gone
I just wrote you this song
My Fair weather friends
f*ck you
