

Girls Chained Up In the Basement Making Babies To Kill

Cancerslug

Girls chained up in the basement making babies to kill
These little sacrifices have gotta be made, and you know I will
The only stars that will shine tonight, will be the pentagrams
on my knives
Girls chained up in the basement making babies to kill
I've got some girls chained up in the basement making babies to
kill
These little sacrifices have gotta be made, and you know I will
The only stars that will shine tonight, will be the pentagrams
on my knives
Girls chained up in the basement making babies to kill
Yeah
Girls chained up in the basement making babies to kill
These little sacrifices have gotta be made, and you know I will
The only stars that will shine tonight, will be the pentagrams
on my knives
Girls chained up in the basement making babies to kill
