

Into the Oceans of Madness

Cancerslug

Endless, into the oceans of madness
I'm sinking deeper in sadness
Lost on my way through the darkness
Then I found you

Your eyes, they lit my way like the moonlight
Lit up like day but it's still night
Even down here on the dark side
Just let it go

Endless into the oceans of madness
I'm sinking deeper in sadness
Lost on my way through the darkness
Then I found you

Your eyes, they lit my way like the moonlight
Lit up like day but it's still night
Even down here on the dark side
Just let it go
