

This is your final warning
I don't care what you heard before
You'll suck my dick and like it
And talking shit is all you are good for

So let this world behold
The only god that it will ever know
My hate for you will never end
Sweet God of Death: Leviathan

This world's not complicated

The rules are the same as they were before
Treat a whore like a f*cking princess
And treat a princess like a f*cking whore

So let this world behold
The only god that it will ever know
My hate for you will never end
Sweet God of Death: Leviathan
