

Love Like A Fist

Cancerslug

Its time to die
so say goodbye
no more romantic lullabys
love is like a fist
hard to resist
so take a fist from the knuckles on your lips
I will black out the eye of the world tenderly
motherfuckers bleeding on my alter
just for me
and Im afraid there is nothing left to say
I see no need to save anyone just let them burn
motherfuckers already live to long
just take your turn
and Im afraid there is nothing left to say but
down here, we all float
