More Than You

Cancerslug

Is it nothing anyway to give your fucking heart away I am nothing but I am more than you will ever be

Is it nothing anyway to throw your fucking life away I am nothing but I am more than you will ever be.

I'm more than you will ever be I'm more than you will ever be more than you will ever be more then you will ever be

Is it nothing anyway to throw your fucking life away I am nothing but I am more than you will ever be.
