

Rape Train

Cancerslug

Don't be afraid.
Take a ride on the rape train.
I know mistakes were made.
Some died on the rape train.
and there are still a lot of people that need to die.
Come aboard you will feel the reasons why.
Nobody wants to take a ride on the rape train.
and still they find themselves inside of the rape train.
Life is going to fuck you up the ass.
We're not even going to stop for gas.
I see your tears and it don't even matter.
I know your pain is real but I don't even care.
Evolution is built from disaster.
If you don't ride your not going nowhere.
So all aboard take a ride on the rape train.
I know mistakes were made.
Some died on the rape train.
and there are still alot of people that need to die.
Come aboard you will feel the reasons why.
Twisting, burning, on the rape train.
