

I wish I could have torn your mothers cunt apart...  
and plucked you out of her before you were born  
and then the world might have been a little better,  
a little easier for everyone  
I wish I could have slit your daddy's fucking throat...  
before he stuck his filthy cock into that whore  
and then the world might have been a little better,  
if we had known that you were coming long before  
sometimes life is just as ugly as it seems  
you only get back the hatred that you bring  
but if I had known the shit that you would become  
I might have stopped you from ever being  
your my only weakness  
my only deception  
my only enemy  
my only friend  
I wanted to love you  
but how I could hate you  
I wanted you with me until the end
