

Satan
Satan
I know it was a girl that brought you down

Satan
Satan
I know it was a girl that brought you down

Satan
My sweet Satan
Don't let them take your light from you again

Satan
Satan
I know it was a girl that brought you down

The only hell I've known
Was the blue of her eyes
And the only thing I've lost
Was the heaven between her thighs

I could sleep for a million days
Or a million fucking nights
If it would keep you out of my mind
Then it would be alright

Satan
Satan
I know it was a girl that brought you down

Satan
My sweet Satan
I know it was a girl that brought you down

Here in hell
Everything is well
Here in hell all is well

Here in hell
Everything is well
I'm wishing you were here in hell
