

So Many Dead

Cancerslug

Ill put on the mask
Ill take up the knife
Ill put on the gloves
Ill take your life
I am a fucking force of nature
I am the beast inside the man
With life and death here in my hands
I am the one who is coming
Take cover
Oh no, not while they are sleeping
Fuck them, they deserve what they get
I am the teeth of the machine
Sent here to grind your world clean
I have seen so many dead, but I can have no sympathy
