

Straight Razor Rape

Cancerslug

Why the fuck did you cut off that bitches cunt?
Well how the fuck else could I get it in my pocket?
And while I'm standing here arguing with myself
I know that I should be getting my ass somewhere else
Blood on my hands
The tears in her eyes
Please undertsand
There will be peace when you die
I know what it takes
To make a heart ache
A straight razor rape
You weren't the first
You won't be the last
Give me a break and take your own life
