

# The Black Death

Cancerslug

(C'mon, let's go!)

(C'mon, let's go!)

Burn all the witches

Bring out your dead

See through the eyes of the plague doctor's mask

Fill up the beak with the sweetest of scents

Inhibit all forms of miasmatic death

(C'mon, let's go!)

(C'mon, let's go!)

Pile all of the bodies

Into the ditch

Dust them over and just forget

Let everybody celebrate the end of the world from the black death

Let out their blood

Maybe frogs hold the cure

Humors rebalanced

All torture's endured

The covenant says that sorcery is to blame

But we don't give a f\*ck

Because all hope is in vain

(C'mon, let's go!)

(C'mon, let's go!)

Pile all of the bodies

Into the ditch

Dust them over and just forget

Let everybody celebrate the end of the world from the black death

(No!)

[Solo]

(C'mon, let's go!)

(C'mon, let's go!)

The black death

The black death

(Bring out your dead)
