

Three Times Again

Candiria

Don't forget the pain, your destination
Break the core of lies in half
Analyze this thought perception
Plead before the jury of my vine
Courteous, generous the fragments that define witness

Synthetic man the DNA master key man made
Tolerable excessiveness
Manufacturing the human product
While the duplicates are paved is thy pallet satisfied?

False blood additives compatible
Snapping the vertebrae revolve around the points
Natural law brilliant forces of attraction celebrate

Incriminating substances spew cattle pressed abrasions
Obligated to advancement inspected thoroughly
Oversized dependency the state of art engines are running
Most cunning crawling pig quench to saturate caressing to obliviate

Do not surround yourself with an assembly of resented fools
They will leave you plummeting to your death never ending recycled pool
Third world dissident my teeth are clenching
Terrorized in digital in a state of importance

Intimidate discontinue the plagued
Convenience three times again
Slipping cyber health omnipresent

Rescue evolvilist evaporate the deserts dry
Release the valves high pressure pure mentalist
Candidate that pacifies send this up to the glands
One for you and me rising strong the unities
Conquering the corrosions

Run from nothing, run from nothing fast
Blinded by the critical the plots shall come to pass
Pull the grin down off
Choking you to death the fall of empires to come unleash
