

No Lights

Candlebox

These city lights sparkle bright in your eyes,
these streets they swallow you whole.
The cat you are, are your senses high,
you're sensational all alone
They call me crazy to try and handle you;
toys in the attic, unstable, loony toons.
You'll just runaway, lesson learned the hard way
I sit and wait for you once more.

And I can't explain
What you hold over me
Your touch it gave me
Such a fever it's burning free
I'm goin crazy
What you done baby
I'm goin crazy
Iÿ wanna run my fingers through your fur mama
Need you right here next to me.

The darkest night it's hiding in your mane
I pick up the scent of you
In darkness you lay witness to it all
can't you hear me cry to you
They call me crazy to try and tend to you;
toys in the attic, loose nuts, I'm such aÿ fool.
You'll just runaway, lessons learned the hard way
I sit and wait for you once more.

And I can't explain
What you hold over me
Your touch it gave me
Such a fever it's burning free
I'm goin crazy
What you done baby
I'm goin crazy
I wanna run my fingersÿ through your fur sugar
Need you right here next to me.

I'm so lost in you, are you lost in me?
I'm so lost in you, so lost.

And I can't explain
What you hold overÿ me
Your touch it gave me
Such a fever it's burning free
I'm goin crazy
What you've done baby
I'm goin crazy
I wanna run my fingers through your fur mama
I need you right here next to me.
