Disposal of the Body

Cannibal Corpse

The basement incinerator
Is where they'll put the head
Hose the floor and clean the room
Anywhere they bled

Into boxes go the bags
Fill the space with rocks
In the dark of night
He throws them off the docks

Rotting in the river Never to be found Under tons of concrete Deep beneath the ground

From behind he grabs his mouth The blade goes to his neck Bulging veins pumping blood He struggles to protect

If you don't cut open the stomach The corpse will rise and float The victim is discovered dead Rotting organs bloat

The killer chops the body With a scalpel and an ax The parts are then drained And put into the sacks

Grab the neck, Slit the throat, take the life Hang the corpse - Prepare to drain the blood

Bone saw, meat cleaver, filleting knife Carve the corpse - Dissect him in the tub

Smash the teeth, slice off scars, crush the bones With a crowbar - scrape off all tattoos

If you don't cut open the stomach The corpse will rise and float The victim is discovered dead Rotting organs bloat

The killer chops the body With a scalpel and an ax The parts are then drained And put into the sacks

Chunks of a skull Sawn in half bones Body is found Killer unknown

[Solo - Owen]
