

All Good

Capital Kings

You and I, running wild
Love like I ain't never had it, never had it
Breathe you in, never quit
I don't wanna live without it, live without it

I got you on my mind and I can't get you out
My head is spinning, I don't wanna slow it down
I love you like it's all I ever knew

'Cause whenever I'm with you, it's all good, it's all good
Everything is all, everything is all
All good, all good
Everything is all, everything is all, all good

Good, it's all good
Everything is all, everything is all
All good, all good
Everything is all, everything is all, all

You and me, like a dream
You made something out of nothing, out of nothing
Free fall in your arms
Just because I know you got me, I know you got me

I got you on my mind and I can't get you out
My head is spinning, I don't wanna slow it down
I love you like it's all I ever knew

'Cause whenever I'm with you, it's all good, it's all good
Everything is all, everything is all
All good, all good
Everything is all, everything is all, all good

Good, it's all good
Everything is all, everything is all
All good, all good
Everything is all, everything is all, all

I got you on my mind and I can't get you out
My head is spinning, I don't wanna slow it down
I love you like it's all I ever knew

'Cause whenever I'm with you, it's all good, it's all good
Everything is all, everything is all
All good, all good
Everything is all, everything is all, all good

Everything is all, everything is all
All good, all good
Everything is all, everything is all, all good
