

# Satellites

Capital Kings

We're satelllites  
We're satelllites

No space, no time  
We own the sky  
Holding onto heaven  
Light up a torch  
Burning on forever  
One flame we bore  
Our worlds collide

We're satelllites  
We're taking flight  
Off from the ground  
Can't hold us down  
We're echoing worldwide  
Just for tonight  
In our satelllites

We are satelllites  
We are satelllites

A sea of stars  
One beat, one heart  
Holding onto heaven  
Light up a torch  
Burning on forever  
One flame we bore  
We breathe the spark

We're satelllites  
We're taking flight  
Off from the ground  
Can't hold us down  
We're echoing worldwide  
Just for tonight  
We are satelllites

Yea, up, up in the sky  
Seeing the planes passin' me by  
I'm starting not to crash this  
Wanna make this last,  
cuz there ain't no comin' down this time  
Locked in, wanna let you know  
Where we goin' it ain't no joke  
Headed home just don't let go  
(We are satelllites)  
Just don't let go

We are satelllites

We are satelllites  
We are satelllites
