

## Adultery

### Captain, We're Sinking

I don't like the taste of your insides  
They fall through your nose  
And your feet can't stand the weight of your heart  
And its consistent beats

I drink more milk than she does  
My best friend is my dog  
Relax, relapse, relax, relapse

You're in my head  
You're in my head  
You're in my head

Now with every exhale we gave  
Stars formed into the sky  
And we smoked until our lungs turned black  
And watched the sky turn white  
I drink more milk than she does  
My best friend is my dog  
Relax, relapse  
She don't love me but she loves my mom

You're in my head  
You're in my head

You're in my head

So say goodnight  
Tonight I am leaving  
(You're in my head)  
Your feet were cold and grey  
(You're in my head)  
I watched you die one hundred times  
Your feet were cold

Well last night we got tattooed in bruises  
So why do we do this  
You know we've already been through it  
I carved your name into a public restroom  
In a town you've never been to  
God it's so hard to love you

So say goodnight  
Tonight I am leaving  
(You're in my head)  
Your feet were cold and grey  
(You're in my head)  
I watched you die 100 times  
Your feet were cold
