

Our Great Escape

Capture the Crown

I've come to think
The world is full of empty people
We fall, lost a part of ourselves
We used to know existed

[?]
And let it slip away
And did you forget to say
Their lies open the wound to [?]

Show me your heart
(Show me your heart)
And I can show you the way
This is the story of dying days
It's our great escape

The sun goes down again
I watched the night roll in
I've learnt to watch the stars
And overcome the darkness

Let me show you the way!

Show me your heart
(Show me your heart)
And I can show you the way
This is the story of dying days
It's our great escape

Where will you be
When it's too late?
And the world it's set to [?]
Don't go with them

It's never too late
If you ever leave
I can show you the way
It's never too late
If you ever leave
This is our great escape

(Don't let me go)
Don't let it, don't let it, don't let it
(Don't let me go)
Don't let it, don't let it, don't let it
(Don't let me go)
And I can show you the way
(Don't let me go)
And I can show you the way
