

Storm In A Teacup

Capture the Crown

If there's no tomorrow, can we replace it?
If there's no tomorrow, can I hate the same way?

Made of em, make em go
Lay em down, lay em down
More of this world, make up

Stop me from figuring out for this song
We're bout to be fallin, fallin
Stop me from thinking right now who's to sin
Who else to be falling, falling, falling again
Falling again

Find it
Sign it, fallin, out
Stronger, I fall out
Right now I step
I wanted to be forever, and pleasuring
Pleasurize a manic life

What has this world become
All do is screamin, I've told
What has this world become?
For a thing on
What has this world, what has this world become?
What has this world, what has this world become?
