

## i wanna fly

Keith Caputo

there's love and life staring you in the face  
i began to cry can hardly keep up and i wanna live  
i wanna fly i began to cry.

my heart's not yours know i wasn't wrong i will let you down i  
came along no i wasn't strong but you should see me now

my heart's blood is on your dawn it's making me run it's bringi  
ng ya down

you thought that everybody's out to get you sad little soul i'll  
l always look out for you  
i wanna live i began to fly you must have thought it was the en  
d of the world

my heart's blood is on your dawn it's making me run it's bringi  
ng ya down i wanna live i wanna fly.
