

In This Life

Keith Caputo

you stumble a mile you take a stumble
so many dead end roads you're on
you're playing with fire
you cover your mirrors

how many bedrooms have you burned down?
don't let yourself fall
just know where you're going
keep looking for doctor's cure

said she could get killed
said she was abused
stranded in forgotten years

sharon you've got to be strong
baby i'll keep you safe & warm
sharon don't let yourself fall
so keep your head up hold on

sharon you've got to be strong
baby i'll keep you safe & warm
sharon don't let yourself fall
so keep your head up hold on

the weakness it showed
down suicide road
doctor, doctor got no cure

as far as my poor eyes could see
baby brings me to my knees
the habit the hurt that it feeds
with your head face down in bed
the dead bury the dead
they put a price on her head

sharon you've got to be strong
baby i'll keep you safe and warm
sharon don't let yourself fall
so keep your head up hold on

sharon you've got to be strong
baby i'll keep you safe & warm
sharon don't let yourself fall
so keep your head up hold on

sharon you've got to be strong
baby i'll keep you safe & warm
sharon don't let yourself fall
so keep your head up hold on
