Ramshackle

Keith Caputo

been ramshackled
uclers knocking at my door
i've kept it together
trippin in a dead boys orb

yearning for her snow rose city lights, the seasons swirl and i dropped my shiver in light forever..

so lets just get out of this mess and pick a tender with no reply my girl i cant live without her her soul ill sink without her

pretty us, pretty wild, pretty tears in her face so lets just get out of this mess

i might have to medicate
before i go bezerk
im down in on empty
but i wish i wasnt

ashes to ashes dust to dust i dropped my shiver and light forever..

lets just get out of this mess
