

Glory of Nelly

Caravan Palace

Lord,
one day I will cop and lock the doors like every got one shot
and leave my sticker
rock it silly
illey and reach the skylands?
From bother rub it, it black it.
getting in mess, getting impressed
browsing even though i adore him
now it's very nay, so
don't, let me down and follow
soon we'll touch the skylands
Don't, let me go and follow [let us go, we'll fall]
now we're in the skylands
