

# Finding Freedom in Hopelessness

Career Soldiers

I despise this world, I can't take this life  
I wish I was never born  
I'm already in fucking hell  
With nothing worth living for

There is, there is, no hope

Nothing's left but thoughts of depression and hate  
Feelings I battle daily, you will never relate  
I feel so empty I'm waiting for my last breath  
To liberate me from this horrible mess

There is no future, yes I know this  
But we find freedom, in this hopelessness

People won't stop the lies and betrayal it's a fact  
Through these eyes the whole world has turned pitch black  
Since day one I've had orders shoved down my throat  
From my teachers, politicians, enemies, and foes

There is, there is, no hope

My enemy is so big, I feel so weak  
I'm not going far my future's looking bleak  
I'll grasp on to what little life I have left  
And search for freedom in this life of hopelessness
