

Live My Life Resisting

Career Soldiers

How can you be proud to live in a country where people are killed because of their race?

How can you be proud to live in a country where the innocent is oppressed day by day?

I will not fly that flag of hate I won't let them take my life away

I will not recite nationalistic anthems, of fascism and greed

Look back on your entire life; you've followed every order you've been told to do

You no longer have a mind of your own

I will always live my life resisting

Live my life resisting

Live with resistance

Live my life resisting

How can you be proud to live in a country where ignorance breeds hate everyday?

How can you be proud to live in a country where the government lies to your face?

I will never pledge allegiance to a flag, of capitalism and hate

I will not fight a mindless war; do to my nation's greed for more

Sounds of liberation
