

Somethin' Bout You

Carl Thomas

There are certain feeling
that I have for you
They've been bubbling
Since the day that we were introduced

I don't know what to do
Cause I'm so gone over you
And I... don't know why
I feel this way

Don't quite know what it is
Something bout you baby
Something bout you baby
Not for sure what it is
Something bout you baby
Something bout you baby

It's the little...
things you do that turn me on.
Like a pillow...
you're so soft, baby we belong together

Is it your voice or way that you talk
Whatever it is I'm loving it
Is it your eyes
Or pretty smile
Whatever it is, I'm loving it.

Something bout you Something bout you
Something bout you Something bout you...
