

Cool Reaction

Carlene Carter

Why on why do we go on this way
Playing games that lovers always play
It's so sad and you're so glad
Maybe I can find a way today

I try so hard to give you what you want
But that's not good enough

All I want is satisfaction
All I get's a cool reaction

Think I'll play another game today
Think I'll change my face
I will be just what you want to make me
But you will see me just like any other

I try so hard to give you what you want
But that's not good enough

All I want is satisfaction
All I get's a cool reaction

Lovers look before you leap
Take good care to land on your feet
Don't waste time with someone else's heart
You know you'll always end up hurting someone

Why try so hard to give him what he wants
When he's not good enough

All I want is satisfaction
All I get's a cool reaction
