Nowhere Train

Carlene Carter

Two blue hearts, steppin' off a nowhere train Standin' on a one way street, dreamin' 'bout a long sea cruise Gonna have a brand new start Gonna have a grand new part to play We're gettin' off a nowhere train

We won't turn back, we got some place to be A better life ahead for the likes of you and me Leave our sorrows behind That was a bad old time, we had We're gettin' off a nowhere train

We were young and we were runnin' Like our life depended on it But that ain't no way to live, now is it dear There were stars a fallin' far and wide To guide us on our nowhere ride You don't know where you're goin' 'Til it's the end of the line

Two blue hearts, standin' on a dead end track Lookin' like the cat drug in, dreamin' 'bout a moonlit kiss Gonna have a life real sweet Keep it all nice and neat, somehow We're gettin' off a nowhere train

With this change of reservation We'll arrive our destination No memories to haunt us in this world With these miles of life behind us There's no sadness here to bind us No reason to look back And now we're just lookin' up ahead

Two blue hearts, steppin' off a nowhere train Standin' on a one way street, dreamin' 'bout a long sea cruise Gonna have a life real sweet Keep it all nice and neat, somehow We're gettin' off a nowhere train Oh darlin', you and me We're gettin' off a nowhere train
