

# Skyliner

Carmen McRae

Skyliner, skyliner  
Flying so freely  
We seem to really  
Touch Heaven higher  
Higher, ever higher

Sunbeams all dance  
On your wings  
Where the light falls  
And then when night falls  
Stars dance above

Giving a show  
For the people below  
As we fly, as we fly  
So high

Hearing each single beat  
Of the motor's repeat  
With a sigh, baby  
By and by

I'll hold him close  
That's the sweet song they sing me  
Skyliner, bring me home to love

I'm hurrying home to you  
I'm through with being lonely  
I'm hurrying home to you  
Don't you know you're  
My one and only

Fast, fast, traveling fast  
Dear, all the quarrels of the past  
We'll keep in the past, dear

I wanna be in your arms  
Where I can hug and kiss you  
I wanna be in your arms  
Wanna show you the way I miss you

Fast, fast, traveling fast  
Dear, and to have you close  
Is all that I'm thinking of
