

## I Think I Like It

Carola

I think I like it, when you put your arms around me  
I think I like it, no doubt about it, you really turn me on

I get the feeling, when you do the things you're doing  
I hit the ceiling, I get the feeling  
It's creeping up my spine

When I'm with you boy, my head is spinning 'round  
My heart is beating faster, I take off from the ground  
I'm really knocked out, before you count to ten  
I don't know how you did it, but do it again

I think I like it, the way you hold me when we're dancing  
I think I like it, don't wanna fight it, this time I'm giving i  
n

I never knew that my emotions were so strong  
When you hold me in your arms I feel that that's where I belong  
Though I thought that love's a word that you would never hear m  
e say  
I'm in on the game that you play, all the way

I think I like it when you put your arms around me...

When I'm with you boy...

I think I like it, the way you hold me when we're dancing...

I think I like it, when you put your arms around me  
no doubt about it, I think I like it  
the way you hold me when we're dancing  
I think I like it, I think I like it  
when you put your arms around me  
no doubt about it, I think I like it  
the way you hold me when we're dancing, I think I like it

I think I like it, no doubt about it
