

## Radio Love

Carola

Well, it's five o'clock in the morning  
I didn't sleep a wink all night  
I've been tossing, turning and yawning  
And here comes the light  
There's no one around at this time  
Nobody that I can talk to  
I know what to do to feel fine  
Turn on the radio

I can hear you, you're my radio love  
You're right beside me in my room  
And I'm near you, you're my radio love  
You take away the gloom  
Your voice is so soft and tender  
And I know that you're only talking to me  
I've got nothing to do but surrender to you  
Can't you see  
You are my radio, you are my radio love

Well, it's five o'clock in the evening  
And I'll be working late tonight  
Everyone at the office is leaving  
It doesn't seem right  
There's no one around at this time  
Nobody that I can talk to  
I know what to do to feel fine  
Turn on the radio

I can hear you, you're my radio love  
You're right beside me in my room  
And I'm near you, you're my radio love  
You take away the gloom  
Your voice is so soft and tender  
And I know that you're only talking to me  
I've got nothing to do but surrender to you  
Can't you see

I can hear you, you're my radio love  
You're right beside me in my room  
And I'm near you, you're my love  
You are my radio, you are my radio love
