

# Everybody's Got The Spirit

Carole King

You can feel it in the air  
Like a circle growing  
You can tune right into it  
If you know what you're looking for  
If you want to be a part of it  
Open the door to your heart and your mind  
You can't help but find  
As you begin to soar

Everybody's got the spirit  
Yeah, you know what I mean  
Working together, keeping it nice and easy  
Keeping it free

There's a train pulling in  
To the nearest station  
Fare is low  
You can go if you want to  
If you're gonna get on board  
Now is the time, 'cause it's on the move  
The music is soothing  
The rhythm is grooving

People growing all the time in every way  
Learning where they are in terms of every day  
Might as well keep moving, time won't let you stay  
Everybody's got the spirit
