(Love Is Like A) Boomerang

Carole King

If you want to give your heart Don't be afraid to try Love is like a boomerang It comes right back to you

You've got a need for company Someone you know will be there Don't let your bruised and battered soul deny it My scars are plain to see But love's been good to me And I know it's because I was willing to try it

So if you want to love again Don't hesitate any more Love is like a boomerang It comes right back to you

Throw it out, let it fly Let it soar, watch it sail across the sky Mountains are there for you to climb People are doing it all the time You can make it to the top if you make your attempt a strong on e

So if you want to give your heart Don't be afraid to try Love is like a boomerang It comes right back to you Comes right back to you Right back Let it fly
