

# Spaceship Races

Carole King

Baby, you're so frazzled  
Spinnin' around in a busby swirl  
With all that razzle-dazzle  
I know at heart you want a down-home girl

Aw, ya know I want to take you to the spaceship races  
Watch 'em do a few laps around the sun  
But if you don't go in for far-off places  
I'll take you home with me  
When the day is done

Baby, you're so scattered  
Your span of attention is shrinkin' fast  
Your brain's been battered  
By all the disappointments of the recent past

Aw, ya know I want to take you to the spaceship races  
Watch 'em do a few laps around the sun  
But if you don't go in for far-off places  
I'll take you home with me

Didn't I see you walkin' on Main Street  
Lookin' in the windows  
Waitin' by turnstiles  
Thinking of things you thought you'd like to buy

Living off dreams stored up in film cans  
Looking at screens just waiting your turn while  
You looked up and saw a rocket in the sky

Aw, ya know I want to take you to the spaceship races  
Watch 'em do a few laps around the sun  
But if you don't go in for far-off places  
I'll take you home with me  
When the day is done  
When the day is done
