

# What Have You Got to Lose

Carole King

Yes, I know you've loved and lost  
And you've been figurin' up the cost  
Of your last, your saddest goodbye

I'm gonna stay right here with you  
So if you're looking for somethin' new  
All you have to do is choose  
What have you got to lose

Yes, it shows you need a change  
And you've been feelin' very strange  
'Bout the things that made you feel so good before

And I've been feelin' blue  
'Cause I'm so much in love with you  
And all you'd have to do is try something new  
What have you got to lose

And when you're ready, let me know  
Come to me, come, let your river flow  
When you're ready, aw, give me a sign  
It's time you stepped back out in the sunshine

Wouldn't you like to wake up and find  
Me every morning on your mind  
Oh, come on, don't be shy  
Come on, you don't have to hide

Come on and get me  
What have you got to lose  
Come on and get me  
Aw, what have you got to lose
