

## Blast Off

Case

Mission control, before we take off  
There's been a slight change on my rocket  
See I know that your more hands on  
So tonight I want you as the pilot

Yeah as we switchin' it up  
I want you to touch  
Everything in this cockpit  
Come out your clothes, nobody gon' know  
Cause we do it all in private  
And when we're through you want it more this way  
Over and over again

Just as long as you give me that cutical  
Girl it's on, it's on, it's on, it's on  
(Blast off, I'm ready to blast off  
5,4, 5-4, 3-2, 3-2, 1, girl quit playing with me)  
Just as long as you give me that cuticle  
Girl it's on, it's on, it's on, it's on  
(Blast off, I'm ready to blast off  
Blast off, I'm ready to blast off)

Remote control, I wish I could pause  
Do a freeze frame on your body  
Lights off, I watch you transform  
Now come and be the star I know that you are

Yeah as we switchin' it up  
I want you to touch  
Everything in this cockpit  
Come out your clothes, nobody gon' know  
Cause we do it all in private  
And when we're through you want it more this way  
Over and over again

Just as long as you give me that cutical  
Girl it's on, it's on, it's on, it's on  
(Blast off, I'm ready to blast off  
5,4, 5-4, 3-2, 3-2, 1, girl quit playing with me)  
Just as long as you give me that cuticle  
Girl it's on, it's on, it's on, it's on  
(Blast off, I'm ready to blast off  
Blast off, I'm ready to blast off)
