

Difficult

Case

We're both pitiful
Prefect, only way I can explain what it is
We're no options on our own
things are so unknown
Now we're screaming through the forest
But no one hears a word
If we try to cut the trees down
Then all that's left is love

So why can't we get this right on the first time we love, baby
I know it's hard
But something simple is just being together baby
Why you gotta be so
So damn difficult
So damn difficult
So damn difficult

A love, a love oh why
Your heart is vapours in the sky
All the silly arguments that see the love
There we go, look at us
It used to be easy going
We used to be so damn open
No one could tell us nothing
That was all for nothing

So why can't we get this right on the first time we love, baby
I know it's hard
But something simple is just being together baby
Why you gotta be so
So damn difficult
So damn difficult
So damn difficult

Everytime it's you I give my heart too
You know
So damn difficult
It can all be so easy
It can all be so easy baby, yeah
