

# I Gotcha

Case

- Don't worry 'bout a thing  
My love is on the way  
Don't worry 'bout a thing  
Cuz I gotcha babe

Girl you know that I am someone you can count on  
When things get rough, when things get tough  
I'll be there when no one else is around  
So don't ever let me down  
And I don't want to see you frown

Always I'll be with you  
Through the thick and thin  
And all the other things you feel within  
Always I will try  
So now I think it's time  
And now I'm gonna make you mine

Girl you know that I am someone you can count on  
When things get rough, when things get down  
I don't want to fuss and fight  
I just want to make it right  
Loving you is all I wanna do baby

Oh, hey  
I don't want to fuss and fight  
I just want to make it right  
Aaaah, oh, see when no one else is there  
I'll be standing by your side
