

Love Of My Life

Case

Such vivid thoughts came running through my mind
All the time I had the chance to make you mine
I let that chance go and slip away
And I still regret it to this day
Cause I knew you were that special kind of love everywhere
As if you fell down from up above
But at that time I was too blind to see, oh and now

- I may have lost the true love of my life
Cause I know in my mind I was afraid
I could belong to the wrong someone else
Cause I know in her heart she was afraid

The other night I saw you with your friend
Wondering if you are happy in love with him
We said hello and then I moved along
Felt so wrong but I knew I had to carry
Couldn't look each other up in the eye
Knowing if we did we be paralyzed
Knowing these feelings are still here, and I

But if the day comes along that
You are by my side
Then I will not have to say, whoa
