

Meet Me In the Middle

Case

Everyday, soon as I get out of bed
Wondering where you are
Building prison walls inside my head
Patching up the holes inside my heart

I never, never, ever had nobody quite like you girl
Forget us, what I try to tell myself but
It just won't work

Won't you meet me in the middle
Half way is not too far for love
If you meet me in the middle
We won't be giving up
Meet me in the middle

Sitting here, thinking bout what I need
What I'd rather do without
Who'd have thought I'd fall in so deep
I'd rather just be drowning cause

I never, never, ever had nobody quite like you girl
Forget us, what I try to tell myself but
It just won't work

Won't you meet me in the middle
Half way is not too far for love
If you meet me in the middle
We won't be giving up
Meet me in the middle

You don't know just how much I can take
Til' you've been through it
You don't know just how much a heart will break
If you don't do it

Won't you meet me in the middle
Half way is not too far for love
If you meet me in the middle
We won't be giving up
Meet me in the middle

You an meet me, yeah
In the middle
Meet me in the middle
Meet me the middle yeah
You can meet me...
