

Old Fashioned Lovin'

Case

Put your body in that negligee that I like
Tonight I got an appetite
I won't stop until I'm good and satisfied
Savoring each and every bite
You've had a long day
Relax your body
Run your bath water and candle light
Dry your body off just to get it wet again
And after we get through you go tell your friends

How we made good old fashion loving
Loving until we drop off in a sleep off in that wet spot
How we made good old fashion loving
Wake up in the morning
Pick back up right where we left off

No going through the motions tonight
Let's make this one special like it our very first time
Touch on your body baby and you can touch mine
Kiss all your special places I hope you don't mind
Just bring your body here
I'll whisper in your ear
Telling you what's on my mind
Dry your body off just to get it wet again
And after we get finish you can go and tell your friends

How we made good old 'fashion loving
Loving until we drop off in a sleep off in that wet spot
How we made good old fashion loving
Wake up in the morning
Pick back up right where we left off

Left off Loving until we drop off in a sleep off in that wet spot
Oh wee
Left off Loving until we drop off in a sleep off in that wet spot
When we make good good loving baby
Good good loving baby
Gonna dry your body off just to get it wet again
And after we get finish you can go and tell your friends

How we made good old fashion loving
Loving until we drop off in a sleep off in that wet spot
(All up in that we spot baby)
How we made good old fashion loving
Wake up in the morning
Pick back up right where we left off

How we made good old fashion loving
Loving until we drop off in a sleep off in that wet spot
How we made good old fashion loving
Wake up in the morning
Pick back up right where we left off
