

Something that you told me  
Confessions of a three times sinner  
Baby let me, baby let me heal your body  
When I lay hands on that altar

I prayed for it  
Told to wait for it  
Have faith in it  
Now I'm deep in it

[?]

The doors of this church are open, baby  
All I want to do is testify about the goodness of your love  
You ain't the only one to lay down on my shoulder  
And tell me all your secrets

You could be my religion, babe  
When I kneel down and worship with you  
Come inside this sanctuary  
When I kneel down and worship with you

I'm coming to you on my knees  
Ready to give you everything that you need  
Just surrender your body to me, baby  
And I'll be the salvation that you need

Come claiming it, I will stay with it  
Through thick and thin, you know I'm deep in it  
And I don't want to hear about a goddamn blasphemy  
Girl I just want to see can you blast for me

The doors of this church are open, baby  
All I want to do is testify about the goodness of your love  
Cause you ain't the only one to tell me all your secrets  
Tell me all your secrets

You could be my religion, babe  
When I kneel down and worship with you  
Come inside this sanctuary  
When I kneel down and worship with you

You could be my religion, babe  
When I kneel down and worship with you  
Come inside this sanctuary  
When I kneel down and worship with you
