

It's 3 o'clock, thinking of that ghetto love
California, knowing there's a part of us
Separated but damn I still love my kids
Kind of faded texting like you're laying here
Acting like you're the only one
You can't tell me that you ain't feeling us
There's a part in this and you're playing it
I can't take the pain got me laying here thinking

You ain't gotta call cause I know he's right beside you
Let me love you baby all night
Got me feeling for your voice and a glass of Jack Daniels
Drunk texting trying to say goodbye
Got me missing you, got me missing us
Got me missing all that freaky love
Got me missing you, got me missing us
Got me stuck inside this room and I'm spinning and spinning and spinning

Saturday, I want these thoughts of you to fade
But I need this drink to make it all right
Ain't got no time to play I'm at the bottom of this bottle
And I'm 'bout to put it all on the line
Say you miss me girl, all it takes is a word
Cause I know you're in a situation
Got this Jack and coke thinking about letting you go
Cause it just would not be the same

You ain't gotta call cause I know he's right beside you
Let me love you baby all night
Got me feeling for your voice and a glass of Jack Daniels
Drunk texting trying to say goodbye
Got me missing you, got me missing us
Got me missing all that freaky love
Got me missing you, got me missing us
Got me stuck inside this room and I'm spinning and spinning and spinning

You ain't gotta call cause I know he's right beside you
Let me love you baby all night
Got me feeling for your voice and a glass of Jack Daniels
Drunk texting trying to say goodbye
Got me missing you, got me missing us
Got me missing all that freaky love
Got me missing you, got me missing us
Got me stuck inside this room and I'm spinning and spinning and spinning

You ain't gotta call cause I know he's right beside you
Let me love you baby all night
Got me feeling for your voice and a glass of Jack Daniels
Drunk texting trying to say goodbye
Got me missing you, got me missing us
Got me missing all that freaky love
Got me missing you, got me missing us
Got me stuck inside this room and I'm spinning and spinning and spinning
